FOR IMMEDIATE RELEASE

## Bob's Hobby Center - National Distributor for RC Aero and YD-A Engines

Niagara Falls, NY- December 15 2009 - RC Aero Products LLC proudly announces that they have entered into an exclusive master distributor agreement with Bob's Hobby Center of Orlando, Florida. Bob's Hobby Center will now handle the US commercial sales for the RC Aero and YD-A engine line up.

Bob's Hobby Center is the main US distributor for Xoar propellers. As the new US Distributor for RC Aero and YD-A engines they believe that this synergy will provide a great opportunity for the two businesses to develop together and provide excellent products and services to their Customers.

Bob's Hobby Center, a Central Florida hobby institution was purchased in 2002 by Steve Thomas and his wife Julie.

Steve has been flying and building r/c models for over 25 years and has a wealth of experience in the hobby and the hobby industry. Steve is especially well known for his expertise with large scale models, he is a regular participant in Top, Gun, Monster Planes and Joe Nall.

RC Aero Products President, Henry Zwolak states, "Steve's and Julie's accomplishments in the hobby industry show their commitment and drive to succeed and exceed. The rc hobby industry is extremely competitive and to have Bob's Hobby Center working alongside us will make us a stronger force."

"We are marketing and developing rc aero engines and products that are currently built in Australia with plans to build and assemble them here next year," notes Henry Zwolak. "Having Steve onboard with his expertise makes us perfectly positioned to take advantage of this."

### About RC Aero Products LLC
